March 23, 2004 2:30pm - 6:30pm 229 Dixon Hall

## MESSENGER For K-8 Teachers and Education Majors Featuring Stephanie A. Stockman Education/Public Outreach Project Manager and Team Lead

Stephanie Stockman has been with Science Systems and Application, Inc., since 1993, first as a Mars researcher and then as an education and outreach specialist. She was the education coordinator for the NASA/Goddard Space Flight Center Laboratory for Terrestrial Physics and currently coordinates the Education/Public Outreach efforts of the Landsat 7 Project Science Office and EOS Aura at Goddard in addition to MESSENGER. In her MESSENGER role she will assure that the Education/Public Outreach plan becomes reality and fulfills its goals on time and within budget.

During this workshop you will be introduced to a variety of resources for your classroom and professional development opportunities. The MESSENGER Education Modules contain standards-based educational materials and lesson plans developed by the MESSENGER team. At the workshop you will learn about activities and lesson plans that are related to either the MESSENGER mission or other NASA Projects.

If you are interested in finding quality resources about astronomy and space sciences, be sure to call (252) 335-3992 to reserve your seat for this workshop. No Registration Fee ... Refreshments will be served
